IMPACT Grant Application

Education Minnesota Foundation for Excellence in Teaching and Learning

Mission: Education Minnesota’s Foundation for Excellence in Teaching and Learning: promoting vision, best practice and achievement

Foundation’s goal

The Foundation seeks to encourage and support broad-based efforts to effect meaningful, long-lasting change in the policies and practices that shape teaching and learning. Using innovative professional development program designs, and in partnership with those agents most likely to assist in driving these changes, the Foundation ultimately expects to positively impact the learning experiences of Minnesota students.

Education Minnesota’s Foundation believes that a major and effective way to attain this far-reaching goal will be through systemic improvements in the professional development experiences of educators. Through this grant process, it is the Foundation’s intent to promote the research, development and adoption of policies and practices that will become the basis for those improvements.

Application process

The program consists of awards for theme-based, renewable projects with second-year funding contingent on progress toward the goal demonstrated in year one.

The deadline for application submission is 4 p.m. Jan. 15, 2015. Approximately $15,000 is available for one year. The budget should reflect a one year project.

Written applications will be screened with leading applicants presenting their proposal to the Foundation Board of Trustees for final decision.

Plans must include specifics on goals, planning and implementation strategies; budget; identification of a fiscal agent (subject to Board agreement); timeline; and participants.

This grant program is not designed to accommodate individual classes or improvements to specific curricula; rather, the intent is to influence policies and generalized practices concerning the professional development of educators with statewide impact.

Revised 8/1/14
IMPACT Grant Program

Education Minnesota Foundation for Excellence in Teaching and Learning

Eligibility

To be considered, applications must:

- Be member driven;
- Have student learning as an ultimate, clearly stated, desired outcome;
- Include Education Minnesota members as partners in the planning and implementing processes;
- Include a project evaluation component;
- Demonstrate capacity (or potential) for systemic impact on educators;
- Include goals, intended outcomes, participants, budgets and timelines.

Preference

Preference will be given to applications that:

- Address the theme/issue identified by the Education Minnesota Foundation Board as an area of concern or interest;
- Incorporate action research in their framework;
- Partner across grade levels and disciplines;
- Include partners (groups, organizations, individuals) who are in a position to effect and/or support changes in policy and/or practices related to the professional development initiatives;
- Use technology as a tool to provide accessibility and where long-term improvements in technology use are part of the intended outcomes;
- Make use of existing support systems and personnel in innovative ways thereby reducing expenditures;
- Produce useful data which can be shared and reproduced for the benefit of educators and students;
- Carefully consider the potential impact of their project on policy decision makers (classroom, local, district, Legislature, voters);
- Include matching and in-kind contributions.
